

Benefits Analyst – Petoskey, MI

Imagine working for an industry leader where you benefit from the winning combination of positively impacting the lives of your clients while earning great pay and outstanding benefits.

We are seeking an experienced professional to join our Employee Benefits department as a Data and Process Automation Specialist. Core competencies should include Advanced Excel experience, Visual Basic and database programming, process modeling, and data analysis. Apply your analytical and problem solving skills to Health Plan proposal generation, process improvement, and claims analysis. An ideal candidate will have excellent communication and writing skills, and thrive on an environment of creativity and collaboration.

In this position, you will:

- Create client Health Plan proposals
- Automate Benefits Team processes
- Integrate carrier and client data files into a single format
- Analyze & format large complex data sets including claims, and financial statistics into easy to understand client presentations

If you can bring professionalism, proactive and forward looking perspective, analytical thinking, a commitment to excellence and a personal desire for continuous improvement, we want to talk to you!

Do you already possess a Life and Health insurance license? Even better!

KorthaseFlinn offers:

- **A great benefits package** that includes medical, vision, dental, and life insurance, short and long term disability, Simple IRA, HSA and FSA accounts, PTO, charitable time off, paid holidays, and gym membership reimbursement
- **Educational assistance**
- **Advancement potential** into other great roles within the organization

All qualified applicants will receive consideration for employment without regard to the individual's race, color, sex, national origin, religion, age, disability, genetic information, status as a military veteran or any other characteristic protected by applicable law.
